MIRACLE APOLLON

IT OPERATIONS, SUPPORT, AND CYBERSECURITY PROFESSIONAL

Chicago, IL 60628 | +1 954-591-7771 | ayitiwifi@gmail.com | linkedin.com/in/miracle-apollon-83594221

CAREER PROFILE

Versatile technology professional combining user support, cybersecurity training, database leadership, electronics knowledge, and customer-facing experience. Brings a methodical approach to incident triage, endpoint and identity support, documentation, data integrity, and stakeholder communication. Particularly well suited to organizations seeking an adaptable professional who can connect technical operations, security awareness, and service delivery.

VALUE TO EMPLOYERS

- Broad technical foundation across Windows endpoints, Microsoft 365, Active Directory, Intune, networking, hardware, ticketing, IAM, and cloud-security concepts.
- Security-focused training in incident response, systems forensics, vulnerability management, SOC/SIEM concepts, risk, privacy, and access control.
- Healthcare-research database leadership requiring accuracy, confidentiality, documentation, analysis, and cross-functional support.
- Customer service experience explaining technology clearly, resolving problems calmly, and escalating issues appropriately.
- Multilingual communication in Haitian Creole, French, English, and Spanish.

TECHNICAL EXPERTISE

Service Delivery: Help Desk; Desktop Support; Field Support; incident triage; ticket documentation; remote support; customer communication

Microsoft Environment: Windows 10/11; Microsoft 365; Active Directory; Microsoft Entra; Intune; Outlook; Teams; SharePoint

Security: Incident response; digital forensics; vulnerability management; SIEM/SOC concepts; IAM; endpoint security; GRC; data privacy

Infrastructure: LAN; TCP/IP; VPN; Remote Desktop; hardware repair; SSD; RAM; BIOS/CMOS; printers; peripherals

Data and Digital: SPSS; Epi Info; NVivo; ArcGIS; database management; HTML; CSS; JavaScript; n8n; AI-agent tools

PROFESSIONAL EXPERIENCE

Team Associate - Electronics Department | Walmart, Delray Beach, FL | *Oct 2021 - May 2022*

- Provided front-line technical guidance for consumer electronics and resolved common device, setup, and connectivity questions.
- Translated technical information into clear next steps while maintaining professional customer service in a high-volume environment.
- Supported inventory organization, pricing updates, merchandising accuracy, and issue escalation.

Head of Database Management - Scientific Research | Adventist Hospital of Haiti | *Jan 2011 - Dec 2014*

- Managed research databases and supported data collection, cleaning, validation, access, and documentation workflows.
- Analyzed health-research data using SPSS, Epi Info, and NVivo and contributed to technical and scientific reporting.
- Provided technical support to research teams and coordinated the resolution of data-quality and system-use issues.
- Applied structured troubleshooting, confidentiality awareness, and process documentation in a healthcare research setting.

Independent Web and Automation Projects | *Project-based*

- Built and maintained responsive websites using HTML, CSS, JavaScript, and practical hosting workflows.
- Explored workflow automation with n8n and AI-agent tools to streamline repetitive digital processes.

- Created technical documentation and user-facing instructions for web, data, and automation projects.

EDUCATION AND PROFESSIONAL DEVELOPMENT

- Associate Degree in Cybersecurity - In progress
- People & Business Leadership Certificate - Bellevue University, 2022
- Computer Networking - ICT Network, 2014
- Electronics Repair - Christ the King Electronic School, 1992-1995

CERTIFICATIONS AND TRAINING

- IBM SkillsBuild Cybersecurity Certificate
- IBM training: Incident Response & Systems Forensics; Cloud Security; Security Operations & Management; Vulnerability Management; System and Network Security
- AWS Cloud Practitioner
- Governance, Risk & Compliance / Data Privacy Certification
- Google IT Support Professional Certificate
- Microsoft Entra - Identity and Access Management training
- CompTIA A+ - In progress

TARGET ROLES

Help Desk Technician | Desktop Support Technician | Field Technician | IT Support Specialist | SOC Analyst Tier 1 | IAM Support | Cloud Support
