MIRACLE APOLLON

Cloud & IT Support Specialist · Azure Cloud Intern Candidate

Chicago, IL · (954) 591-7771 · ayitiwifi@gmail.com · Authorized to Work in the U.S.

PROFESSIONAL SUMMARY

IT Support and Cloud professional with 10+ years of combined experience in database management, cloud infrastructure, technical support, and cybersecurity governance. Completed all 13 modules of AWS Cloud Practitioner Essentials with strong crossover applicability to Microsoft Azure services. Certified in Microsoft Entra (Identity & Access Management), CompTIA Core 2, Google IT Support, and GRC & Data Privacy. Adept at configuring systems, analyzing data, and delivering clear technical communication across multicultural environments. Fluent in four languages. Eager to apply cloud knowledge in a hands-on Azure consulting internship.

CORE COMPETENCIES — AZURE & CLOUD RELEVANT

Cloud & Infrastructure: Azure-aligned cloud concepts (compute, storage, networking, databases, AI/ML, security, migration, well-architected solutions), AWS Cloud Practitioner (all 13 modules), cloud monitoring & governance, cloud migration strategy

Identity & Security: Microsoft Entra (IAM), GRC & Data Privacy, cybersecurity governance, Active Directory, VPN, firewall, malware removal, CompTIA Core 2 security

IT Support & Systems: Windows Server administration, Active Directory, DHCP, DNS, TCP/IP, network routing/switching, hardware & PC repair (7+ years), CMOS/BIOS configuration (10+ years), desktop & mobile device support

Data & Tools: Database design & management, SPSS, Epi-Info, NVivo, Microsoft Excel, SharePoint, Intune, n8n, ArcGIS, HTML, CSS, JavaScript (basic)

Soft Skills: Stakeholder communication, technical documentation (4–6 user guides), team leadership (16–20 members), client training, multilingual (English, French, Haitian Creole, Spanish)

PROFESSIONAL EXPERIENCE

Head of Database Management & Scientific Research | Adventist Hospital of Haiti | 2011 – 2014 | Port-au-Prince, Haiti

- Designed and managed cloud-ready public health databases supporting epidemiological research across multiple study variables
- Collected, cleaned, validated, and analyzed large datasets using SPSS, Epi-Info, and NVivo — demonstrating data pipeline skills directly applicable to Azure Data Services
- Configured and maintained IT infrastructure in a resource-limited environment, including network setup and system administration
- Led a technical support team of 16–20 members, coordinating workflows and communicating technical decisions to non-technical stakeholders
- Produced publication-quality research reports and technical documentation — skills aligned with Azure consultant deliverable standards

Electronics Team Associate | Walmart | Oct 2021 – May 2022 | Delray Beach, FL

- Advised customers on electronics and technology products, translating technical specifications into accessible language
- Maintained systems, updated pricing databases, and supported store operations — reinforcing structured IT support habits

INDEPENDENT PROJECTS & INITIATIVES

Founder | CompumasterHaiti (YouTube Tech Platform) | 2019 – Present | Remote

- Built and managed a full YouTube-based technology promotion platform from scratch, handling content creation, IT setup, and digital infrastructure

Developer | Dreamlore & APQ Prayer (Web & Utility Software) | 2025 – Present | Remote

- Independently developed and deployed web applications and utility software at idreamlore.com — demonstrating hands-on cloud deployment and web project management

Author | Qualitative Research Mastery (Published Guide) | Feb 2026 | sastem.gumroad.com

- Published a 150+ page technical guide translating complex research methodology into clear, structured content — reflecting ability to document and communicate technical processes
