MIRACLE APOLLON

Chicago, IL | (954) 591-7771 | ayitiwifi@gmail.com | linkedin.com/in/miracle-apollon-83594221

IT Support • Desktop Support • Healthcare IT

PROFESSIONAL SUMMARY

IT support professional (Google IT Support Professional Certificate; CompTIA A+ exam prep completed) with 10+ years of hands-on PC hardware, software, and end-user support. Led database management for a hospital research department, supervised a team of 16–20, and ran data systems and IT for Haiti's national field epidemiology program. Skilled in Windows 10/11, Active Directory, Microsoft 365, hardware deployment, BIOS/CMOS configuration, and network troubleshooting. Patient, clear communicator who writes user guides and trains staff. Trilingual: English, French, and Haitian Creole.

TECHNICAL SKILLS

- Desktop & hardware: PC builds and repair, BIOS/CMOS, SSD and peripheral setup, OS installation, imaging and deployment, malware removal
- Systems: Windows 10/11, Active Directory, Microsoft Entra, Microsoft 365, SharePoint, Teams, Chrome OS, Remote Desktop
- Networking: TCP/IP, DNS, DHCP, VLAN configuration, VPN, wireless networking, network monitoring
- Support: help desk, incident triage, remote and on-site support, user training, technical documentation
- Data & tools: database design, Excel, SPSS, Epi Info, ArcGIS, HTML/CSS/JavaScript, n8n automation, AI tools

PROFESSIONAL EXPERIENCE

Head of Database Management – Scientific Research | Adventist Hospital of Haiti *Jan 2011 – Dec 2014*

- Managed research databases and data systems for a hospital research department; supervised a team of 16–20.
- Provided IT support to doctors, nurses, and research staff, keeping workstations and systems running.
- Wrote 4–6 technical user guides and trained staff on software and data-entry procedures.
- Protected sensitive medical data with strict confidentiality and accurate record-keeping.

FETP Coordinator – Public Health Data & IT | Field Epidemiology Training Program (FETP), Haiti *2015 – Oct 2020*

- Configured and maintained IT infrastructure in a resource-limited setting: network setup, Windows workstations, printers, and system administration.
- Designed and managed public health databases; cleaned, validated, and analyzed datasets in SPSS, Epi Info, and NVivo.
- Coordinated with equipment suppliers and service providers on quotes, repairs, and invoice checks.

Electronics Team Associate → Asset Protection Associate | Walmart, Delray Beach, FL *Oct 2021 – Feb 2024*

- Electronics (Oct 2021 – 2023): set up and troubleshot computers, phones, and devices for customers; resolved order and product issues.
- Asset Protection (2023 – Feb 2024): monitored the store's CCTV system and documented incidents.

Independent Web & Automation Projects | Project-based *Ongoing*

- Build websites and workflow automations with HTML/CSS/JavaScript, n8n, and AI agent tools.

Bus Operator | Chicago Transit Authority (CTA), Chicago, IL *Feb 2024 – Feb 2026*

- Operated city buses safely and on schedule; delivered courteous service to a high volume of riders.
